

# LAKE EFFECT

## LAKE SUPERIOR

With an endless horizon and depths that make it the biggest of the freshwater Great Lakes— 350 miles of open water goodness—Lake Superior is constant yet ever changing. These colorful waters are ocean-like.

**10%**  
of the world's  
fresh water

Open the tap:  
it would cover  
North and South  
America in one  
foot of water

Home to 80+  
different  
kinds of fish

The impression it leaves can be lasting, transforming the perspectives of those who take the time to experience these shores—whether you're skipping stones at Brighton Beach, climbing rocks in Canal Park, strolling the sands on Park Point or simply gazing out from high above on the parkway or trails. There's a majesty and mood distinctly Superior that can truly soothe and inspire your own.
